Evacuation plan during a disaster

A large earthquake occurs

→ Where do you live?

- **Residents of the city**
  - Able to live at home → Go home
  - Unable to live at home due to building collapse or fire damage → Go to a Disaster Response Facilities
- **Non-residents of the city**
  - **Those working in the city**
    - Able to take shelter at the workplace → Go to your workplace
    - Unable to take shelter at the workplace → Go to a Temporary Stay Facilities
  - **Visitors to the city for sightseeing or shopping** → Go to a Temporary Stay Facilities

※**Temporary Stay Facilities** open to the public during a disaster out of goodwill, in the spirit of mutual help. The management of the facilities will not be held responsible for accidents, etc. that arise within the facility (including those due to defects in the building/facility), except in cases where they were caused intentionally, or through gross negligence on their part. (from the guidelines for the securing and operation of temporary stay facilities)
